

Make Your Own Tap Shoes

Tap shoes are a type of shoes a dancer may wear. Tap shoes make wonderful sounds when you move your feet. You can make your own tap shoes to wear when you dance to your favourite Worker songs.

You will need:

Two threads of thin elastic
Large colourful beads or buttons
Craft bells
A pair of shoes

Step 1: Thread colourful beads, buttons and bells on a string of elastic. Make sure the bells are evenly spread out between the buttons and beads.

Step 2: Knot the ends of the elastic together tightly.

Step 3: Slide the elastic over the front of each of your shoes. The beads, buttons and bells should sit on top of your feet.

Step 4: Dance, dance, dance! Can you hear your feet making music?
